As yet, the “Inventory” is not available to the public as we are having internal discussions on the issue.

Bud,  
Can you also let us know when the inventory will be made available to the public – or if it has been already. It would be really nice to have it done this month to get it off the list. FYI - We are reviewing your SOP response with the hope we can get those off the list, too.

Hi Bud:

How will Illinois EPA identify and record a 100% of the Single Event Violations and all wet weather SNC, including all inspections will you input it directly into ICIS or are you going to send it James Coleman?

Sincerely,
